Grandview Buys Providence Medical Imaging; Set to Open Under New Name on Feb. 1

WASHINGTON TWP. -- Grandview Medical Center has purchased **Providence Medical Imaging** (PMI), located at **7740 Washington Village Drive** in Washington Township within the Cornerstone Medical Center. Soon to be known as “Cornerstone Medical Imaging”, the facility will open under Grandview management on Tuesday, Feb. 1.

Featuring two ultrasound machines, a DEXA bone-density scanner and a mammography unit, PMI performs about 8,000 procedures per year. It has been operated for the past six years by Providence Medical Group, which will retain physician offices within Cornerstone.

After closing on Monday, Jan. 31, for the setup of a Picture Archiving Computer System (PACS) and other systems, Cornerstone Medical Imaging becomes Grandview’s ninth free-standing medical imaging site the following day. On Dec. 21, Grandview began operating two sites formerly owned by Dayton Medical Imaging.

To schedule or for more information on Cornerstone Medical Imaging, call **(937) 439-7420**.
